UN WATER

22 MARCH
WORLD WATER DAY

Water
FOR PEACE

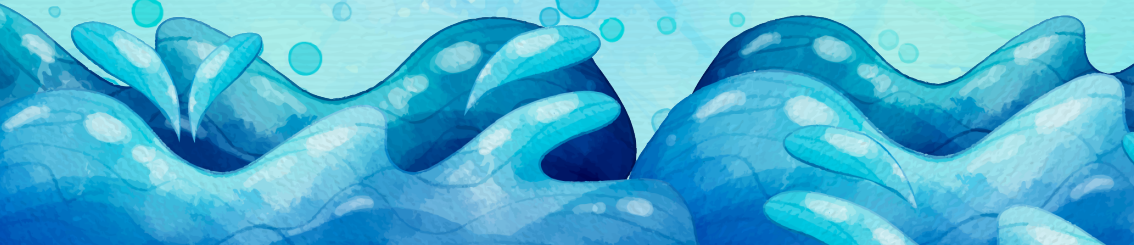

I.E. 
Provenza

Creating a positive ripple effect

The theme of World Water Day 2024 is 'Water for Peace'.

When we cooperate on water, we create a positive ripple effect - fostering harmony, generating prosperity and building resilience to shared challenges.

We must act upon the realization that water is not only a resource to be used and competed over - it is a human right, intrinsic to every aspect of life.

I.E. 
Provenza

This World Water Day, we all need to unite around water and use water for peace, laying the foundations of a more stable and prosperous tomorrow.
